

Fire Extinguishers

Monthly checks and annual service — never missed, always evidenced.

A WHAT IT TRACKS

Portable fire extinguishers of every class (A, B, C, D and K) across the site.

C INSPECTION CADENCE

- Monthly visual inspection
- Annual maintenance — every 12 months
- Hydrostatic test — 5 or 12 years depending on type

B STANDARDS IT MAPS TO

29 CFR 1910.157

Portable fire extinguishers (OSHA)

NFPA 10

Standard for portable fire extinguishers

D HOW IT WORKS — THE INFINID MECHANISM

- Two tags, cross-checked.** Every asset carries an active V-Tag plus a passive RFID tag, bound together in AssetWorx!. Each read reconciles the two — a mismatch flags tag-swap, tamper, or an uninspected item put back into service.
- Hands-free location.** The active V-Tag runs on a Zigbee self-healing mesh, reporting zone-level location that settles in about 3–4 minutes — tags report themselves, no scanning required.
- Intervals watched for you.** The platform tracks each inspection interval by time, use-cycles or hours, and fires pre-expiry alerts before anything falls out of date.
- Certificates & open data.** It generates the certificate / register of examination on demand, and feeds your ERP, reporting and AI through an open REST data contract.

KEY DATA CAPTURED Extinguisher class (A/B/C/D/K), agent type, agent capacity, last hydrostatic-test date.

\$1,200 / year PER MODULE · FLAT
